The reliability number is the number of race days a boat has sailed in since January 2015
Reliability < 5 indicates insufficient data. %TA is percentage time adjustment rounded.

Race master or OOD has to set missing MF times Printed Saturday, 11 August 2018, 5:25 PM

PS. The small black number beside your MF is the calculated value before rounding to the nearest 20 secs so you can see the trend.

Boats not raced in the last 12 months not printed here but their data is retained. Please advise about sold or defunct boats.
