Below are time adjusted experimental results showing times in seconds.

Purple numbers rounded to 1 decimal place but not rounded in all calculations.

With MF, a long race favours the late starters and a short race favours early starters.

With %TA, the race length makes no difference. If you sail better than usual you will be near the top.

If you sail worse than usual you will be near the bottom. Possibly a fairer system????

Combined Fleet results -->Club Racing 15-9-18

Well done Cliff.
Congratulations

Second Bob

These results are usually divided into 3 sections. Section 1 are the official results.

Section 1

with MS 1,2 or 3 fleets etc., results are NOT handicapped.

with MF, results are ALWAYS handicapped using a fixed handicap for each race.

with A and B or C fleet, results are ALWAYS handicapped using a variable handicap for each race.

Section 2

results are NEVER handicapped. The times are used to generate %TA values for section 3.

Section 3

ALWAYS shows percentage time adjusted handicapped results.

The mixture of handicapped and UNhandicapped results should keep everyone happy???

Thankyou race officers Tom

and Leon
